

## NetworkIP Services Overview

# Prepaid Platform (Prepaid Calling Cards)

### Switch to Prepaid's Best Platform — superior technology, flexibility, quality and controls.

NetworkIP enables resellers to run their entire business — from facilities, to billing, to back office — on our platform, just as if they owned their own switch, with no capital or back-office investment. With the industry's only Arbinet®-enabled, high-volume capable, carrier-grade platform, it's not just a platform; it's your platform to profit.

#### Contact Information:

To find out more about how NetworkIP's services can help build your business, call **800.605.2577** or email [netsales@networkip.net](mailto:netsales@networkip.net).

#### Resellers and Distributors Enjoy:

##### Usage-based pricing:

Only charged on usage, customers keep all breakage from unused minutes, surcharges and maintenance fees. No restrictions — just great rates.

##### Real-time access:

All the tools and information for customers to provision, rate, bill, monitor and support their private-label card programs in real-time, via our web-based platform — at no additional cost.

##### Quality assurance:

Through our patented IQT® technology, we ensure the best in call monitoring, call quality and call termination — at no additional cost.
