Anytime minutes expire 90 days after activation or refill date. A minimum of \$10 must be added every 90 days to keep your account active. If the account is refilled before the 90th day, the existing balance (if any) will carry over to the new expiration date. If the minimum \$10 is not added to the account every 90 days or the balance drops to \$0, any remaining funds in the account if any will be forfeited, the account becomes inactive and the subscriber loses the phone number. All bonus minutes expire 30 days following the date of the first call placed on the handset. Some restrictions may apply. Rates, airtime plans, terms & conditions, and handsets are subject to change. International per minute call charges are based on specific destination rates, and incurred in addition to domestic per minute rates. Comprehensive Terms and Conditions are enclosed in the package and available online at [totalcallmobile.com](http://totalcallmobile.com) ©2008 Total Call Mobile, Inc. Please call Total Call Mobile with any questions or comments about services.
